

Service Awards

Service Awards are presented to members in appreciation of their long and dedicated support of the American Optometric Association and the profession of optometry. AOA members are recognized for this commitment on 10, 25, 45, 50 and 60 year anniversaries thanking them for their commitment to the profession.

States will receive notification from the American Optometric Association of a list of members from their state or affiliate who are eligible to receive AOA Membership Service Awards (milestone/anniversary) in September of each year.

They will be asked to review the names of their award recipients on the attached list for membership status, accuracy, spelling, shipping address, etc. The awards will be ready for shipping early January of the following year.
