This Is Not An Interactive Quiz.

First page provides the Question – the second (or following) page provides the Answer.

There are 12 questions and 12 answers.
I. **What describes the distance from the back of the corrective lens to the cornea?**

A. Pantoscopic angle  
B. Fitting triangle  
C. Vertex distance  
D. Trifocal lens
1. **What describes the distance from the back of the corrective lens to the cornea?**

   A. Pantoscopic angle
   B. Fitting triangle
   **C. ANSWER: Vertex distance**
   D. Trifocal lens
2. The height of the reading portion of a multifocal lens as measured from the deepest part of the eyewire to a reference point is called the

A. Seg height.
B. Frame height.
C. Pupillary distance.
D. Boxing system.
2. The height of the reading portion of a multifocal lens as measured from the deepest part of the eyewire to a reference point is called the

A. ANSWER: Seg height.
B. Frame height.
C. Pupillary distance.
D. Boxing system.
3. When writing a prescription, which abbreviation stands for once every day?

A. Bid
B. Qd
C. Qid
D. Tid
3. **When writing a prescription, which abbreviation stands for once every day?**

   A. Bid
   
   **B. ANSWER: Qd**
   
   C. Qid
   
   D. Tid
4. **What is the onset for the medication Opthic using 0.5% solution?**

A. 15-60 minutes
B. 45-120 minutes
C. 10-30 seconds
D. 30-60 minutes
4. What is the onset for the medication Opthetic using 0.5% solution?

A. 15-60 minutes
B. 45-120 minutes
C. ANSWER: 10-30 seconds
D. 30-60 minutes
5. **Patient history consists of which seven (7) elements:**

A. Demographic information, chief complaint, history of present illness, review of general health, social history, current medications, and allergies.

B. Family tree, current medications, allergies, eyeglass frame selection, pulse rate, chief complaint, and demographic information.

C. Demographic information, family tree, review of general health, social studies, allergies, chief complaint, and current medications.

D. Chief complaint, work history, occupation, social history, general health, blood pressure, and demographic information.
5. **Patient history consists of which seven (7) elements:**

A. **ANSWER:** Demographic information, chief complaint, history of present illness, review of general health, social history, current medications, and allergies.

B. Family tree, current medications, allergies, eyeglass frame selection, pulse rate, chief complaint, and demographic information.

C. Demographic information, family tree, review of general health, social studies, allergies, chief complaint, and current medications.

D. Chief complaint, work history, occupation, social history, general health, blood pressure, and demographic information.
6. Which instrument provides laser-based, non-contact, non-invasive imaging of the retina?

A. Optical Coherence Tomography Scanner
B. Fundus Photography
C. Pachymetry
D. Automated Keratometers
6. Which instrument provides laser-based, non-contact, non-invasive imaging of the retina?

A. ANSWER: Optical Coherence Tomography Scanner
B. Fundus Photography
C. Pachymetry
D. Automated Keratometers
7. **Headaches or pain around the eye may be caused by poor drainage or infection of the**

A. Posterior chamber.
B. Nasolacrimal duct.
C. Sinuses.
D. Aqueous humor.
7. Headaches or pain around the eye may be caused by poor drainage or infection of the

A. Posterior chamber.
B. Nasolacrimal duct.
C. **ANSWER: Sinuses.**
D. Aqueous humor.
8. What is the minimum amount of time you must vigorously wash your hands with soap and water to prevent the spread of infection/disease?

A. 10 seconds
B. 30 seconds
C. 90 seconds
D. 3 minutes
8. What is the minimum amount of time you must vigorously wash your hands with soap and water to prevent the spread of infection/disease?

A. 10 seconds
B. **ANSWER: 30 seconds**
C. 90 seconds

9. If you want to build trust with patients and colleagues, what should you do?

A. Wait on your friends first
B. Make negative comments about a patient’s appearance
C. Text, play games on your cell phone while patients are waiting

D. **ANSWER: None of the Above**
10. What does the root word *phot* mean?

A. Light
B. Color
C. Disease
D. Image
10. What does the root word *phot* mean?

A. ANSWER: Light
B. Color
C. Disease
D. Image
I I. Fundus photography requires taking pictures of the back of the eye to document the health of:

A. Optic nerve  
B. Blood vessels  
C. Macula  
D. All of the Above
11. Fundus photography requires taking pictures of the back of the eye to document the health of:

A. Optic nerve
B. Blood vessels
C. Macula

D. ANSWER: All of the Above
12. All the following statements concerning progressive lenses are true except:

A. These lenses are made without a line.
B. Are considered cosmetically superior to bifocals and trifocals.
C. These lenses have powers for viewing at only three distances.
D. Provides a greater range of clear vision.
12. All the following statements concerning progressive lenses are true except:

A. These lenses are made without a line.
B. Are considered cosmetically superior to bifocals and trifocals.

C. **ANSWER:** These lenses have powers for viewing at only three distances.

D. Provides a greater range of clear vision.
