

# STROKES AND YOUR VISION

A MILD STROKE, CONCUSSION OR TRAUMA TO YOUR BRAIN CAN CAUSE VISION PROBLEMS

UP TO 2/3 OF PEOPLE EXPERIENCE CHANGES TO THEIR VISION AFTER A STROKE

DIFFICULTY  
READING

BALANCE PROBLEMS  
AND DIZZINESS

BUMPING INTO  
THINGS

CHANGES IN  
SENSITIVITY TO LIGHT

ONLY AN EXAMINATION BY A DOCTOR OF OPTOMETRY CAN DIAGNOSE THESE ISSUES.  
THERE ARE THERAPIES THAT CAN HELP!
